🌐 <http://www.linkedin.com/in/suhrid-talukder-333suhrid/> 📍 Chittagong

EXPERIENCE

Frontend developer

C-Sunshine 📅 09/2021- 11/2022; 03/2024 - Current 📍 Remote

- Implemented websites and landing pages from concept through deployment
- Integrated RESTful APIs to fetch, display, and update dynamic data in real-time within web applications
- Improved user experience by making the output of the website responsive, mobile-first, accessible, and optimized for SEO
- Contributed to backend services to resolve issues by fixing bugs in the backend codebase and adding features to existing API endpoints
- Implemented a visualization application using vis.js and d3.js to display the current geolocation of customers on a map
- Created React reusable components, unit tested with React-testing-library, and quickly developed prototypes using information provided by the product team

Web developer

Interactive Cares 📅 08/2021 - 12/2021 📍 Dhaka

- Deployed a new content management system to 300+ users, reducing the time it takes to update website content from 1 week to 1 hour
- Developed a backup and restore technology for a website's files and DB, saving 5 hours per week for the team
- Responsible for creating a monthly dashboard showing metrics like unique visits, visits, page views, and bounce rate

Web developer intern

Interactive Cares 📅 05/2021 - 08/2021 📍 Dhaka

- Developed user interfaces with modern JavaScript frameworks, HTML5 and CSS3
- Researched and developed new technology designs
- Developed and improved web application performance and scalability by 60%, reducing loading time to less than half a second
- Reduced web application bugs by 43% through effective debugging, troubleshooting, and bug fixes

Shoplo App

- Created a front-end e-commerce website having different types of products for sale using React and Redux with the Stripe payment system
- Technology: React, Redux, Stripe, Firebase

Course Management

- Full-stack project to manage students, teachers, class schedules, and class resources
- Technology: React, Java Spring boot, MySQL

Invoice

- Created an invoicing application using React and Redux with the Stripe payment system
- Stored invoices and has functionality to pay via Stripe
- Technology: React, Redux, Stripe

SKILLS

CSS3 React Redux D3.js

Debugging Django Firebase

Front-end HTML5 Java

Java Spring Javascript MongoDB

Mysql Nodejs PHP Postgresql

Python Redux Restful Apis
